# INDEPENDENT.

*NEBRASKA LETTER.*

BEATRICE, NEB., Nov. 6, 1870.

MR. EDITOR:—If, through the columns of your wide-awake paper, I can afford pleasure to its many readers, I will gladly impart any knowledge of this country I possess. In writing my former article I did not give as full a description of this place as I should have done. To be concise I will to my subject at once, and first give the

FINANCIAL PROSPECTS

of Beatrice. It being the county seat of Gage county, and the U. S. land office is located here, a much larger business is done than one would naturally suppose. On inquiry I have learned that the amount of business done in a day may safely be estimated at two thousand dollars; and when multiplying that by thirty it makes no mean sum for a town so young. The streets are generally crowded with emigrant wagons, bound still farther west. One party informed me that he counted fifty-one teams in one day. And here, I would say that the land is fast being taken up for homesteads. In my former letter, I made some wrong statements in reference to government lands and soldiers claims. I find there is some government land near here, but not much. The only advantage a soldier has, is that he is entitled to one hundred and sixty acres inside of railroad limits, that is, the land granted by the government to railroads. These lands are valued at two dollars and twenty five cents per acre and a homestead certificate costs them eighteen dollars; for other government lands, held at one dollar and a quarter an acre, the entry is fourteen dollars.

Since last I wrote six new buildings—four stores and two dwellings have gone up. The M. E. society have nearly completed a fine stone church, said to be the finest in the state. The Presbyterians are building a large brick church, with a lecture room beneath. The high school will soon be finished: it is of brick and will cost about seven thousand dollars. Prof. Chase of Ohio, is the principal. The court house will be finished by the first of January, and will cost when completed, fifteen thousand dollars. Two hotels, one stone, the other frame, Two brick yards are insufficient to supply the demand; and artisans skilled in their respective crafts are scarce and command good wages. The stone for the capitol at Lincoln was quarried here. Since the first of April seventy-five new buildings have been erected. The future importance of Beatrice is a certainty; and I can safely say, there are plenty of embryo towns within fifty miles of here, that have the same natural advantages as this place. To you of the east it is inconceivable how rapidly this country is settling up

The stories in circulation about the desperate characters found in this country are false; more honest or upright people are not to be found anywhere. Since last I wrote I have been on the frontier, and even there I found not only men, but mostly God fearing men. And many of them plainly showed that their lot in life had been at one time far different. In every one of these

NEW SETTLEMENTS

there is no selfishness, but a grand feeling of brotherhood toward each other, and every new comer is made to feel himself among brothers.

I have given the above statistics of Beatrice to show what has been done in two years, and what will be done in other towns in less time, now that railroads are coming.

In my next I will give a full description of the frontier settlement of Hebron, on the Little Blue river, where I have concluded to make my home.

One word on politics and I will trespass no longer on your patience. Democracy has not yet made its appearance in any force. We are all republicans, and some settlers say they would like to see a live democrat, just to see how he looks.

Men, there are grand chances, and plenty of land waiting for you.

Yours Respectfully,

FRANK B. TANNER.

In 1861, the capacity of all the railroads in the United States was 2,000,000, their value $740,000,000, and earnings for the year were $50,105 104. The earnings last year were $300,000,000, and the annual increase in tonnage, 92,222,222 tons, valued at $900,000,000.

*INVITING DEATH.*

We have pointed out from time to time lately the cause of half the vice among us; the utter ignorance in parents of the facts that certain nervous and cerebal diseases transmitted from themselves tend to make of their children from their birth criminals and drunkards, and that only incessant and skillful care can avert the danger. A man drinks moderately but steadily all his life with no apparent harm to himself; but his daughters become nervous wrecks, his sons epileptics, libertines, or incurable drinkers, the hereditary tendency to crime having its pathology and unvaried laws precisely as scrofula, consumption, or any other purely physical disease. These are stale truths with medical men; but the majority of parents, even those of average intelligence and culture, are apparently either ignorant or wickedly regardless of them. When our people are brought to treat drunkenness as a disease of the stomach and blood, as well as of the soul, to meet it with common sense and a physician as well as with threats of eternal damnation, and to remove gin shops and gin sellers for the same reasons that they would stagnant ponds or uncleaned sewers, there will be a chance of ridding our almshouses and jails of half their tenants. We have urged this point until it has grown hackneyed and tedious; but how can we be silent so long as fresh murder or suicide exemplifies the ghastly peril and its cause?

Another equally fatal mistake in the training of American children is the system of cramming, hot house forcing of their brains, induced partly by unhealthy, feverish ambition and struggle that mark every phase of our society, and partly by the short time allowed for education. The simplest physical laws, which any tyro in medical science could give, that regulate the use and abuse of the brain, are utterly disregarded by educated parents. Phil's and Tom's stomachs and backs and legs are subjected to all kinds of hygiene treatment, while the poor, spongy tenants that rule them all are neglected, overworked, and disabled for life. To gratify a mother's silly vanity during a boy's school days, many a man is made incompetent and useless. If the boy shows any signs of unnatural ambition or power, instead of regarding it as a symptom of an unhealthy condition of the blood vessels or other cerebral disease and treating it accordingly, it is accepted as an evidence of genius, and the inflamed brain is taxed to the uttermost, until it gives away exhausted.

The proof which was given last week of the results of this fatal error is one so pathetic that we would not touch on it were it not already familiar to our readers, and if we did not think is wrong that the lesson of the beautiful and promising life so prematurely sacrificed should be left unread. Here was a boy, inheriting refined tastes and high nervous sensibilities, reared in a scholarly atmosphere, the whole tendency of whose every day life was to excite his brain to unnatural activity. Beside this, the conformation of his head and his childish habits gave hints of an abnormal action of the brain. "Oil paintings of merit at the age of 11," "popular essays on self government and public schools," were indications of cerebral disease, precisely as a scarlet rash would be of the measles, and should have been received with alarm instead of gratification. A boy of fourteen who devotes himself to metaphysical study, Plato, and Comte, instead of base ball and girls of his own age, needs a physician and not encouragement and laudation. "George," we are told, "refused to take anything on faith; resolved to penetrate into the foundation of philosophy and religion; devoted himself to arguments or the immortality of the soul and the future state of existence." The end came which was only to be anticipated, though it is pitiful enough in the details to bring tears to the coldest eyes. The poor boys disease becomes aggravated shows itself in morbid longings to penetrate the future, in unhealthy sentimentalism, until he makes his friends lie down beside him and drinks the quieting draught which the overtaxed brain imperitively demanded. "Do you like me, Garraway?" says the poor boy, and satisfied puts his arm, like a sick child, about his friend's neck, and at last falls into sleep and quiet. "I cannot help it," he says in his touching little farewell. Of course he could not. The whole life and death of this poor boy, so painfully made public, protest against the fatal ignorance which underlies the ordinary system of education. We should fail in our duty if we did not enforce the protest by the strongest words in our power.—Tribune.

Here is a verbatim copy of a paper posted on the walls of the Exchange at Bristol: 'To marchants, traders and uthers. A young man, about thirty years of age, who understands the bakker bisness and husbandry, would be glad to go to A merry ka or any outlandish place as overseer and like of that. Enquire o' the 'Change keeper. N. B. has no objeesh un to go to Bottomley Bay as a Skool Maester, on condition his life can be insured to the wild savages.'

Fort Sumter is getting scarce. Tourists fill their pockets and travel.

*NEWSPAPERS AS EDUCATORS.*

In one month the newspapers have taught the people more about the politics, statistics, population and strength of the combatants in Europe, and geography of the country, than they would have learned in the schools for years. The fact is the newspaper is the true educator of the people; and the more diversified the reading, the more extended is education. Until recently Metz, Nancy, Weissenburg, Strasbourg, and other towns and fortresses that have figured conspicuously in the contest as strongholds or points where battles occurred, were almost unknown to the masses, but now people talk as knowingly and accurately about them as though they had been the subject of study for years. This is what may be termed the newspaper method of educating the masses, and it becomes a question whether, when the rudiments have been mastered, this is not the easiest, most pleasant, and most economical method of acquiring general information. The vocation, population and military strength of the places named, as well as the whole of both the warring nations have been thus firmly fixed in the minds of newspaper readers, because of the deep feelings of interest in the events transpiring in and around them for the past sixty days, and it only serves to show how rapidly people acquire solid information when they are interested in the subject of study. There are tens of thousands, who through the agency of newspaper war maps, rude as they generally are, for the first time in their lives, perhaps are are made acquainted with the source and course of the Rhine, of which so much has been said and sung. As before remarked, the newspaper is the great popular educator of the day. But for them how slow would be the progress of intelligence.

*VERY NARROW GAUGE RAILWAYS.*

The Philadelphia Ledger says:

The two feet guage railway in North Wales constructed for the purpose of transporting slate and stone to the sea shore is now used as a regular goods and passenger line. The traffic, it is asserted, in consequence of the diminished expenses and working yields a revenue of thirty per cent. on the capital. The reason assigned for this large amount of earnings is, that the proportion between the dead weight and paying weight is much less than on other railways. Thus, the engine and tender weigh ten tons, against forty tons on wide gauge roads. The carriages on the Welsh road transporting twelve passengers weigh thirty hundred weight, or two and a half hundred weight per passenger, while the broad gauge carriage transporting thirty-two passengers weigh seven and a half tons, or nearly five hundred weight per passenger. The London Railway News in commenting upon this two feet gauge, asserts that "its economy and efficiency will cause it to be extensively adopted." Why should not this description of railway economy find favor in this country, especially of branch lines of railway to points and through regions naturally limited in the amount of their business? We have in mind several instances in which much capital has been sunk in railway construction, not because railways were not important nor needed where built, but because they were constructed at too great a cost for the business at the time to be accommodated. Whereas if roads had been constructed embracing the principles of economy suggested in the "Two-feet Gauge Railway of North Wales," they would not only have paid fairly on the capital invested at the beginning, but have gradually developed the region penetrated, to the great advantage of the neighborhoods as well as to the main lines of railroads from which they branched and were to be tributary.

*A RIGHTEOUS VERDICT.*

An important liquor case was tried before Esquire Crall, last week. A Mrs. Snedaker prosecuted a man named John Madden for selling whisky to her husband, a known inebriate, after she had given him notice not to do so. It seems that Snedaker procured whisky there and becoming drunk, lay down on the railroad track, and was discovered there but a short time before the train was due. Col. Isaac Gass was attorney for Mrs. Snedaker, and Andrew Stevenson, Esq., for Madden. The trial was by jury and consumed some two days, the prosecution being made under the amended law of last winter, making the owners of property in which whisky is sold responsible for all damage to parties who procure it. Mrs. Snedaker laid claim for $300 damages, and the jury, after a patient hearing of the case and the able argument of the counsel and charge of the his honor, 'Squire Crall, awarded her damages in the sum of $275.

We think the jury did their duty, and in this matter have delivered a most effective temperance lecture.—Zanesville Herald.

Prof. A. M. Kedzie, of the Michigan Agricultural College, says that one hundred and seventy days have passed in this season without frost sufficient to make its effects upon vegetation; and that, according to the record kept by the Academy of Science at New Haven, it is one hundred and eight years since this has occurred before.

*NEWLY DISCOVERED WONDERS OF THE SUN.*

The light of the sun is 800,000 times greater than that of the moon. The whole amount of the heating power of the solar rays which fall in one year on the earth's surface, would melt a stratum of ice covering this surface one hundred feet thick. Yet the earth receives less than a thousand-millionth part of the entire heat thrown out by the sun into space.

The entire heating power of the sun, is great enough to melt a solid cylinder of ice forty-five miles in diameter and constantly darted into the sun with the velocity of light, or 190,000 miles in a second! All the mechanical agencies of the whole world—the power held by our coal fields, winds, running rivers, fleets, armies, cannons—are less than one two-thousandth millionth part of the caloric agency of the sun.

The most accurate investigations and the latest discoveries show the mean distance of the sun to be about ninety-one million miles, and about three million miles further off in summer than in winter. It is about four million miles nearer than was formerly supposed.

The surface of the sun, in round numbers, is about 2,300,000,000,000 square miles, although all this surface is some seventy times brighter than the Drummond light. Think of its being removed so far off, like the fixed stars, as to become only a twinkling point and we may judge faintly of the distance of the stars! The solid contents of the sun are 323,000,000,000,000,000 cubic miles.

All the planets together if fused into one globe, would still leave the sun 600 times larger.

The weight of the sun has been ascertained by comparing its attraction to that of other known bodies, and is 825,000 times greater than the weight of the earth. Its real weight is 2,155,106,580,000,000,000,000,000,000 tons

A man weighing 200 pounds would weigh on the sun's surface, 5,400 pounds. On Venus he would weigh 186 pounds; on Mercury he would weigh 104 pounds, and on Jupiter 490 pounds.

If the earth revolved on its axis seventeen times faster than it actually does, centrifugal force would destroy all weight. On the sun it would require a revolution on its axis 133 times faster to produce the same result.

Herschel found with his great telescope that many of the stars which make up the milky way, judging from their size, were twenty three hundred times as far off as the nearest fixed stars—but beyond these a still more remote and blended light came, showing the milky way to be unfathomable. Light, flying 190,000 miles a second must have been 10 000 years coming from those remote stars

The ancients knew that the sun was large from being seen alike from remote places. Anaxagoras thought it rather larger than Peloponnesus—about large enough to cover the state of Ohio. Heraclitus believed that every star was a world in the depths of space, surrounded, like ours, by an earth and planets. Kepler and Copernicus, a thousand years later adopted the same theory.

Some of the larger spots in the sun have been found to be 50,000 miles in diameter. One was seen with the greatest diameter or length 187,000 miles. The earth, rolled into one of those dark craters, would be like an apple in a bushel basket.

Through the most powerful telescopes, the bright surface of the sun does not appear uniform, but covered with a multitude of luminous lines alternating with darker lines crossing each other in every direction, somewhat like the grain of an engraving.

The spots change in size and shape, and the actual velocity of the moving edges has sometimes been a third of a mile per second. Fifty spots have been seen at one time.

The red jets of light, which project from darker edges of the moon during a total eclipse, and which so many witnessed last summer in this country, have been found by means of that extraordinary apparatus, the spectroscope, to be burning hydrogen gas! The spectroscope has also shown that there is an immense stratum of hydrogen gas in an incandescent state surrounding the sun, extending to a height of about 5,000 miles, and above this stratum rise, at times, the columns of red prominences, sometimes, 100,000 miles high. Those who saw those columns last summer at the time of the total eclipse, estimated their height beyond the dark edges of the moon to be about one-sixth the sun's diameter, which would make them more than 100,000 miles high above the sun's surface.

The light and heat of the sun cannot be produced by ordinary combustion. If it was a mass of coal (it is about as heavy as coal) supplied with enough oxygen to make it burn with its actual degree of intensity, it would be entire consumed in about 5,000 years.

It has, however, cooled nothing appreciable since the earliest historical periods, and some philosophers think it cannot be exhausted for millions of years by its present immense dissemination of heat and light into space.

About sixty of the fixed stars have been submitted to the examination of the spectroscope, and a certain degree of similarity of constitution is found to exist among them all, resembling our sun. Sodium and magnesium exist in a great number, as well as hydrogen, iron, bismuth, mercury, etc., showing a unity in the creative power which originated and sustains them.

*THE RELIGION OF LABOR.*

Religion does not altogether consist of devotional exercises, but, as well of daily work. We get a wrong idea of Christianity when we reduce it all to songs and sermons, to prayers, solemn faces, and ecclesiastical paraphernalia. It is not especially for Sabbaths and sanctuaries, but also for week days, for shops, for homes, for mills, for stores, for streets and fields. Religion is largely an out door institution. Its author was born, baptized, transfigured and crucified under no roof but the sky. It means diligence in business, serving the Lord in common vocations and every day relations, as well as in consecrated syllables on set occasions. Jesus was more sublimely great, standing unknown at the carpenter's bench in Nazareth, with apron on, than if he had been surplieed as a priest in the temple, or arrayed in robes of royalty on Pilate's throne. He was greater with an adz in his hand than a crown on his head.

Christianity allows no aversion to the mechanic. It gives him an honorable position. It invites him to its home, and visits him in his. Yet how many rich young ladies would scorn to associate with the sons and daughters of our workingmen! The matrimonial problems that busy their brains involve such fractions as lawyers, physicians, large salaried preachers, wholesale merchants millionaires and gentlemen of leisure. It would be ridiculous, they think, to throw themselves away on mechanics! Of course society has its affinities, and that is well. Education grants it. Refinement and culture always seek their level. But we dig down for gold. Too often dissipated dandyism is petted and honored while intelligent industry is denied a place. The difference between building houses and selling houses is not so great that one should be considered contemptible and the other illustrious. Really, as a business it makes but little difference whether a man mends clothes, bones, pens, houses, laws or morals. Work is work, and nothing less; man is man, and nothing more.—Clark's Workday Christianity.

The cry for rest is often louder than the cry for food, not that it is more important, but because it is often harder to get. The best rest comes from sound sleep. Of two men or women, otherwise equal, the one who sleeps the best will be the most moral, healthy, and efficient. Sleep will do much to cure irritability of temper, peevishness, uneasiness and insanity. It will cure the headache, hypochondria, the blues and a long list of nervous maladies. But the cure of sleeplessness itself is not so easy. It is often produced by hard study, long continued watchfulness, too little exercise, tea and whisky drinking, and tobacco using. To break up the habit are required: First, a good clean bed. Second, sufficient exercise. Third, good air, and not too warm a room. Fourth freedom from too much care. Fifth, a clean stomach. Sixth, a clear conscience. Seventh, avoidance of stimulants and narcotics.

Without consistency there is no moral strength.

Endeavor for the best, and provide against the worst.

The body—that is dust; the soul—'tis a bud of eternity.

It is better to be proud of your pride than vain of your vanity.

The way to gain a good reputation is to be what you desire to appear.

Vague, injurious reports are no men's lies, but all men's carelessness.

When we seem to blame ourselves we only mean to extort praise.

Hear one side, and you will be in the dark, hear both sides, and all will be clear.

Fighting is the poorest way to settle a quarrel, because it does nothing to show which is the right.

Hall a queer genius, had made frequent promises to his friends that he would put an end to himself. One stinging cold night he vowed he would go out and freeze himself to death. About eight o'clock he returned shivering and snapping his fingers. 'Why don't you freeze?' asked a loving relative. 'By Jove!' said the pseudo suicide, 'when I freeze I mean to take a warmer night than this for it.'

A local editor of a paper having recently got married, a cotemporary says 'May his father-in-law die rich, and enable poor Stevens to retire from the printing business and set up a cake shop at some railway station.

The present census will show that the United States has fifteen cities of more than one hundred thousand inhabitants. There are but three countries that exceed this—East Indies with twenty-one cities, Great Britain with sixteen; and China with fifteen.

Prussia patterns after the best government on earth. As fast as she occupies the late rebellious territory she appoints tax assessors and collectors to honestly collect the revenue.

A little boy was relating a story he had heard one day. His ideas became confused in some way; he could find no words to explain his meaning; at last he said: 'Well I know enough big words but I don't know where to put them in.

'So there's another rupture at Mount Vociferous,' said Mrs. Parting on, as she put down the paper and put up her specs; 'the paper tells us about the burning lather running down the mountain, but it don't tell how it got on fire.'

**Two Dollars a year, in advance.**

Massillon, Wednesday, Nov. 23.

RAILROADS.—All along, east and west of us, the people of the country towns and cities are alive to the propect of the proposed extension of the Baltimore and Ohio railroad. Land owners are not only giving the right of way, but are reported as subscribing liberally toward the project. Our people seem not to have taken much interest in the movement heretofore, but we are told that some of the enterprising men of the place are now taking hold of the matter, and propose to do their share toward securing the advantages which this great work, if completed along here, will confer. It is quite time to be at work, for northern rivals are busy and wide awake, and are sparing no pains to give them success. The chances for choosing this route are as good as any other at present, and what is to be done should be attended to quickly, for it is said those who have the final settlement of the question will decide it by the last of this month, or at furthest by the middle of December. Then there is no time to be lost, for the end of this month is not far away, and the middle of December is but little further off. It is certainly a prize worth contending for, and without effort here we may be sure it will go where efforts are made, and inducements held out. Nature has given this route advantages which are not to be found north of us, and it will be the fault of the people along, i t if they fail to get the road.

For the last two or three weeks the European news has been of a more or less threatening and warlike character. The purport of it all was, that Russia charged other parties with violating the allied contract entered into in 1856, and for that reason the emperor Alexander and his government have been to insist on their right to the navigation of certain waters. These intimations excited the Turkish and English governments, so that they began to talk warlike—but later news indicate that there is a more pacific spirit taking the place of this menacing language, and it seems now that these parties are disposed to quietly behave themselves, though they are accumulating powder and arms, and whetting their swords.

SATAN IN SOCIETY.—This is the the title of a book just about to be issued by Mr. C. F. Vent, of Cincinnati, who has for years been issuing some of the best book literaries of the country. A few of the advadce sheets of this proposed work have been sent us and from a hasty reading we see that the author in a very plain yet judicious manner discusses some of the prevailing sins of the day—that is, he shows up certain practices in society that none of the profession, as such appear to have the temerity to approach and ventilate. It is a theme replete with interest to all as the truthful and radical sentiments the author utters cannot be controverted by any one. Canvassers who desire to circulate this new book can ascertain the terms by addressing, C. F. Vent, Publisher, Cincinnati, O.

On the temperance question it may be supposed therefore but few of us of that persuasion, and of not much consequence in community. This is a slight mistake. We have the majority—for the right is the majority regardless of numbers. Last Sunday evening we are informed that Bro. Williams, pastor of the Presbyterian church of this place, uttered very wholesome and radical rebukes concerning liquor selling. His word of reproof, we hope, will not be without effect. Bro. Hingeley, also, of the M E church, when occasion requires, is equally outspoken on this question, which is to take a leading part in the public movements of the county at no distant day. May the time soon come!

Our good looking young friend, Albert Withington, of Cleveland, was in town last week. All is the boy we brag about, and we hope he will come again.

On Monday and Tuesday evenings of last week, Mr. McKean Buchanan performed in our opera house to the empty benches. Mr. B. is something of an actor, and has considerable reputation and why he did not have large houses appeared to puzzle the gentleman. On the first evening he appeared before the curtain, and in a neat little speech he said, "I am the great McKean Buchanan, and it is not complimentary to the people of Massillon that they do not know who I am and come out to see me."

Religious services will be held on Thanksgiving day (to-morrow) at the Presbyterian church—that and the M. E. church uniting for this purpose. Mr. Hingeley is expected to preach.

A rather lively row took place on Saturday night in which somebody got hurt more or less—captain whisky commander-in chief. But the marshal came along with his *william* and rather spoiled the amusement. Some of the parties had an introduction to the peace officers and probably paid pretty well for a small amount of information.

There is a nice new billiard table just on its feet at the Zielley House. Step up and punch a few.

THANKSGIVING.— we are requested to say that the stores will be closed on to-morrow Thanksgiving day.

the "sans souci" at the Zielley House, on Tuesday evening was an immense success. The young ladies did it, and they will do some more during the winter.

Mr Vent has recently issued from the press another work called *Belden, the White Chief*. This work is the production of a native of Tuscarawas county, who when about thirteen years of age ran away from his father, leaving the composing rule and shooting stick of a printing office, for the purpose of realizing the romantic life of the western Indians. He didn't stop in his career until he reached Nebraska, then a wilderness, with very few white settlers and plenty of red men. He dhose the latter for his companionship, and in process of time became a leader among them, and married one of their women. The book has all the charm of a romance, yet we are assured abounds in literal facts, full of thrilling narrative, just such as almost every body likes to read under the title of Indian stories. It is finely printed and liberally illustrated with well drawn pictures of Indian life. Mr. Fletcher is agent.

MR. EDITOR.—As the contract with the company who control the gas works in this city will soon expire, and as the next contract must be based upon the provisions of the municipal code, passed May 7, 1869, I have thought proper to request the publication of of the following chapter. Its reproduction is asked, as well for the benefit of the company as the citizens who are consumers of gas.

It is hardly probable that we shall be a great while longer without gas on our streets. The next contract should, therefore, be made with a view to that probability. At any rate, bringing the subject in this light before the consumers will do no harm. The present contract expires on the 28th of January, prox. It is very clear that any contract made by the city for gas, must conform, not only to the spirit, but to the letter of the following provisions. Resp'y,

R. H. FOLGER,
City Solicitor.

City Solicitor's Office, Nov. 19th 1870.

GAS COMPANIES.

SEC. 415. *Councils may regulate the price of gas, etc.* The council of any city or incorporated village, in which gas companies or gas-light and coke companies may be established, are hereby empowered to regulate from time to time the price which such gas or gas-light and coke companies may charge for gas furnished by such companies to the citizens, public grounds and buildings, streets, lanes, alleys, avenues, wharves and landing places; and said gas-light, or gas-light and coke companies shall in no event charge more for any gas furnished to such corporation or individuals than the price specified by ordinance of such council, and such council shall also have power to regulate and fix the price which such companies may charge for the rent of their meters.

SEC. 416. *Minimum not to be reduced during term agreed upon.* In case the council fix the minimum price at which they shall require any company to furnish gas to the citizens or public buildings, or for the purpose of lighting the streets, alleys, avenues, wharves, landing-places and public grounds for a period not exceeding ten years, and the company assents thereto by written acceptance filed in the office of the clerk of the corporation, it shall not be lawful for the council to require said company to furnish gas at a less price during the period of time agreed on, not exceeding ten years as aforesaid.

SEC. 417. *When Council may occupy streets for gas purposes, etc.* If such companies shall at any time be required by the council to lay pipes and light any street, alley, avenue, wharf, landing-place, public ground or building, and shall refuse or neglect for six months after being notified by authority of the council to comply with such requirement, the council may lay pipes and erect gas-works for the lighting of said streets, alleys or public grounds, and all other streets, alleys and public grounds not already lighted; and said gas companies, or gas-light and coke companies, shall thereafter be precluded from using or occupying any of the streets, alleys, public grounds or buildings not already furnished with gas-pipes of such companies, and the council may open any street for the purpose of conveying gas as aforesaid.

SEC. 418. *Gas companies may be permitted to occupy streets.* The council may at any time after the default mentioned in the preceding section permit such gas companies to use and occupy the streets, alleys and public grounds of such corporation for the purpose of lighting the same, and furnishing gas to to the citizens and public buildings.

SEC. 419. *Forfeiture of charter for neglect to furnish gas, etc.* A neglect to furnish gas to the citizens and other consumers of gas, or to the corporation, by any company, in accordance with the prices fixed and established by the council from time to time shall work it all rights of such company under the charter by which it has been established and the council may proceed to erect, or by ordinance empower any person or persons to erect gas-works for the supply of gas to such corporation and its citizens; provided, that nothing in this section, or in sections 416 and 417, shall operate to impair or affect any contract heretofore made between any municipal corporation and any gas-light and coke company.

SEC. 420. *A temporary failure shall work no forfeiture.* A temporary failure to furnish gas shall not operate as a forfeiture, unless such failure shall be through the neglect or misconduct of such gas-light or gas light and coke coke company.

SEC 421. *Gas measurers may be appointed.* The council of any corporation in which gas works may be constructed, may provide by ordinance for the appointment of one or more gas measurers, whose duty it shall be to inspect all gas-meters and certify the correctness of all bills made against the consumers of gas, and perform such other duties as may be prescribed by ordinance.

SEC. 422. *Exclusive monopoly shall not be allowed to gas companies, etc.* It shall not be lawful for any council to agree by ordinance, contract or otherwise, with any person or persons, for the construction or extension of gas-works for manufacturing or supplying the corporation or its inhabitants with gas, which shall give or continue to any person or persons making such agreement with the council, the exclusive privilege of using the streets, lanes, commons, or alleys, for the purpose of conveying gas to the corporation or the citizens thereof, or which shall deprive the council of the right to designate the kind of meter to be used for the correct measurement of the gas furnished under such agreement and to provide for inspecting and regulating the same, or which shall not specify the exact quality of the gas to be furnished, and reserve to the council the right to enforce an exact compliance with such specification, under such rules as the council may prescribe; nor shall the council make any such agreement which shall not secure to the council the right to purchase such works, and all the appurtenances belonging thereto, at any time within the existence of such contract or agreement.

SEC. 423. *Council may erect or purchase gas-works.* The council of any city or incorporated village shall have power, whenever it may be deemed expedient and for the public good, to erect gas-works at the expense of the corporation, or to purchase any gas-works already erected therein.

SEC. 424. *Trustees of gas-works.* When such purchase shall have been made, said council shall appoint a board of five trustees, who shall manage the said gas works and supply said corporation and the citizens thereof with gas, until their successors shall be elected and qualified, as hereinafter provided.

SEC. 425. *To be elected at annual election.* At the annual election occurring next after such purchase, the qualified voters of the corporation shall elect a board of five trustees, to be known as the Trustees of Gas-Works, who shall hold their office for the term of five years, except that at the first election one trustee shall be chosen for one year, one for two years, one for three years, one for four years, and one for five years; and thereafter one trustee shall be elected annually; and said trustees shall not receive any compensation for their services.

SEC. 426. *Powers of board of trustees.* The said board shall have power to construct gas-works, extend gas-pipes, manufacture and sell gas and coke, collect gas bills and other moneys due for gas, coke, or other material sold by them, and disburse the same; to manage, conduct and control said gas-works; to prescribe by by-laws the price of gas and coke, under such rules and regulations as, by ordinance, the council may prescribe, and the manner of using gas; and, to carry into effect the provisions of this section, shall also have power to purchase material, employ laborers, appoint officers, purchase or lease the necessary real estate, and erect buildings theron; and they shall be required to report to the council as often as said council may deem proper.

SEC. 427. *Laying of gas-pipes, and expense thereof.* The council may prescribe, by ordinance, for the laying down of gas-pipes in all highways about to be paved, macadamized, or otherwise permanently improved, and for the assessment of the cost and expense thereof upon the lots or parcels of land adjoining or abutting upon the highways in which the same are laid; but in no case, excepting as a sanitary measure, shall the house connections be built further from the main pipe than the outer line of the curbstone.

**For Sale.**

House and lot on Erie street, formerly owned by Simon Klutz. The house is a frame, containing seven rooms, with barn and good well of water. The lot is 47½ ft front, running back to an alley. The above property will be sold cheap for cash, as the present owner is going west in the spring. For terms apply to M. H. KING, on the premises. 386-4m

**Season of 1870-71.**

***Mason & Hamlin Cabinet Organs.***

*IMPORTANT IMPROVEMENTS*

Patented June 21, and August 23, 1870.

**REDUCTION of PRICES**

The Mason & Hamlin Organ Co. have the pleasure of announcing important improvements in their cabinet organ, for which patents were granted them in June and August last. These are not merely meretricious attachments, but enhance the substantial excellence of the instruments.

They are also enabled by increased facilities for manufacture, to make from this date, a further reduction of prices on several leading styles.

Having completed and added to their former facilities a large new manufactory, they hope hereafter to supply all orders promptly.

The cabinet organs made by this company are of such universal reputation, not only in America, but also in Europe, that few will need assurance of their superiority.

They now offer four octave cabinet organs in quite plain cases, but equal according to their capacity to anything they make, for $50 each. The same double reed, $65. Five octave double reed organs, five stops, with knee swell and tremulant, in elegant case, with several of Mason and Hamlin improvements, $125. The same extra, with new Vox Humana, Automatic Swell, &c. $150. Five octives, three sets reeds, seven stops with Euphone; a splendid instrument $225.

A new illustrated catalogue with full information, and reduced prices is now ready and will be sent free, with a testimonial circular presenting a great mass of evidence as to the superiority of these instruments, to any one sending his address to the Mason & Hamlin Organ Co., 154 Tremont st. Boston, or 595 Broadway, New York.

**Store Room For Rent.**

The room occupied by me as a Merchant Tailoring establishment, opposite the opera house, for rent, immediate possession given. For particulars apply to

378tf H. HAAS.

**Ayer's Sarsaparilla,**

**FOR PURIFYING THE BLOOD.**

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Ulcerous* affections of the muscular and nervous systems.

*Syphilis* or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

Mr. Coleman started early this week for the east with a view of purchasing a new stock of goods in his line. He will soon return with many valuables in the shape of jewelry and other material appropriate to his business.

Our readers will see that Mr. Tanner has favored us with another of his interesting and valuable letters from the far west—away in Nebraska. The spirit of progress and improvement seems to permeate society there most thoroughly, and all appear emulous to excel in making community what it should be. Hope Mr. T. will continue his welcome favors.

**Waterproofs, waterproofs, waterproofs, in plaid, stripe, fancy and plain at Humberger & Son's.**

The United States Patent Laws, with instructions how to obtain patents, is the title of a work of 112 pages, sent to us by Munn & Co., 37 Park Row, New York. It also contains the official rules, forms for patent deeds, hints on selling patents, 150 diagrams of mechanical movements, and a large variety of useful information. It is a book really worth having, and can be had by all who will send their names to Messrs. Munn & Co., as above.

Waterproofs, waterproofs, waterproofs, in plaid, stripe, fancy and plain, at Humberger & Son's.

Yarns of all colors and quality at Ricks'.

NOTICE.—All notes and book accounts of Kelley Bros not settled by Dec. 15, will be left in proper hands for collection.

GEO. V. KELLEY.

Call at the express office. 86tf

*Miner's Monthly Magazine* of New York, consists of 32 quarto pages of well selected and well written original articles, devoted principally to agricultural matters, with judiciously prepared literary reading matter. It is illustrated with well drawn and life like pictures designed to illustate moral and social relations, which add materially to the publication. $1,50 a year. The *Rural American* is also issued by the same publisher, weekly, 8 pages, at $2,50 a year, devoted to agriculture, horticulture and general family reading. *Miner's Weekly* is still another 8-page literary paper, at $2 a year. Those who are partial to good reading and plenty of it will do well to write to T. B. Miner, New Brunswick, N. Y., as that is his post-office address.

Last week in referring to our new calaboose, allusion was made to the fact that one of our good citizens thought it better to imprison the drunkard maker, instead of the drunkard. In this we expressed concurrance, but if anybody dissented from such a conclusion we should be pleased to make room for such opinions. We are glad to say that a contributor has taken up the cudgel in behalf of the party of the second part—the liquor sellers—and gives his reasons therefor. In consequence of the crowded state of our inside columns we are unable to find room for the communication this week, but the writer shall have space for a hearing—or reading next week.

LECTURES.—In many neighboring towns and cities as well as in those more distant, the lecture season has already commenced, and a vast number of communities are now realizing the benefits this modern and popular as well as successful means of instruction. Annually as the president's message comes forth we have tried to encourage and introduce a similar course of lectures here that others enjoy, but experience proves that that these efforts have realized but indifferent success. Must it ever be so? What have the more than 5000 people of Massillon done that they should be deprived of the source of instruction? Or rather, the question may be asked, what have this population done to secure such agencies of increasing knowledge? If any thing is to be done in that way it is quite time to be awake and do something.

GAS.—The question of having gas on the streets, in this city, has long been agitated, but owing to causes which have controled the action of our municipal authorities, no gas enlightens our streets. Those who have the principal control and ownership of the gas works here so far as we are informed, live in a distant city—or at least the establishment is in the hands of a company. The city solicitor, Mr. Folger very properly recommends that the city should be the owner of the gas works, and then there would probably be little or no difficulty in securing light on the streets, in order to which foreigners may be dispensed with more or less indifferent. We are asked to publish in this connection the municipal code of Ohio, which contains, to a certain extent, the government of towns and cities in regard to gas. The owner of the case suggests the propriety of the city owning and having control of the gas works. The law will be read with interest by our citizens.

DEATH.—The death of Wm. Hudson, son of our old friend, John Hudson, of Salem, on last Wednesday morning, took every one by surprise. He was one of the compositors at the office of the *American* of this place, and although but a youth of some 16 or 17 years, enjoying good health, won the esteem of all who were acquainted with him. Faithful, industrious, steady and exemplary in his life he had no lack of friends; and his early death is a source of sincere sorrow to a father who regarded him as a favorite child. Bro. Hudson has been making preparations for some time to remove to Kansas, where he has other sons now living, and contemplated taking William with him but he leaves the remains of a promising boy in the Salem cemetery, near the resting place of a mother who preceded him to that mode of existence to which we are all hastening. Surviving relatives have the sympathies of all with whom they are acquainted in this bereavement.

The fence which partly surrounds the park is considerably criticised by many of our citizens, and the taste of that part of the park committee on the fence, or which controls its style, is the subject of remark by almost every one who has seen the work. We conclude that this is only a temporary surrounding, and that in time the good taste of the committee will substitute something more elegant, and perhaps quite as strong, which will be ornamental as well as useful.

In the weekly medical report of Drs. T. & T. L. Oldshoe, 132 Grant st., Pittsburgh, the number of diseases treated by them during the week ending Nov. 16, 1870 was 159.

To those living at a distance they say:

"We would suggest the following points of observation for those who contemplate sending to us for medicine or examination.

"In collecting a specimen of urine for analysis, take that first passed in the morning.

"Send about two ounces, in a clean vial, well corked.

"To avoid confusion of names and cases, always give the name of the patient in full.

"Be sure to give the age is NOT only necessary to the proper regulation of doses of medicine, but is indispensable to a correct examination of the case."

Mr. Davenport, we are informed, is about putting up a large addition to his bridge building establishment, which will enble him to increase his already extensive operations. He appears to have a good supply of orders, for work is often seen going from his place of business; and within the last week or two Mr. L. S. Hardy went west, to Iowa to put up a number of these iron bridges. These facts indicate that Mr. D's work is of that discription that commends itself to all who appreciate servicable, well made, and permanent structures of this class.

The railroad time was changed on the 20th inst, particulars of which will be found in to day's paper for this locality. As we have been in the habit of doing for years, so we again print the time table for Massillon on cards, and gratuitously distribute them among our citizens. They are appreciated as quite a convenience.

We regret to hear that Mr. C. Aultman, of Canton, one of the successful and enterprising business men of that place, had a severe attack of paralysis, or something akin to it, a few days ago, but from last accounts he was doing quite as well as could be expected. This affliction has stricken down some of the best men in the country, and in many cases it is attributed to overwork—a constant train of the mental powers.

*COUNCIL PROCEEDINGS.*

Wednesday Ev'g, Nov. 16, 1870.

Regular session—Members all present

Minutes of previous meeting read and approved.

REPORTS.

Standing committee on streets and alleys reported he difference between the bid of Herberger and Albright for the improvement of Mill st, to be $112,50, in favor of Herberger.

Chairman of the street and alley committee submitted the following report from A. F. Beech, late civil engineer in regard to North st. improvement

Approximate for Mr. Seiler, contractor on North street improvement, Massillon, O., November 12, 1870:

Amount of cubic yards of earth removed 3,397½, at 15 cents per cubic yard. $356.62.

Condition of work—bad. Respectfully submitted, A. F. BEECH.

To A. Mong, Ch'n Street & Alley Com.

Special committee on city prison, to whom was referred the bill of Killin er & Co, reported an error in said bill of $16,66, in favor of the city, and an order was drawn for the amount of said bill—$223,63—less the amt of error.

Reports of the street commissioner and of the several ward commissioners were presented and referred to the street and alley committee.

Jacob Ingold, commissioner of Ward No. 1, submitted a report setting forth the names of persons refusing and neglecting to pay their road tax, in said ward, which was referred to the mayor for immediate collection by suit.

APPROPRIATIONS.

| | |
|---|---|
| Commissioner Kolman | $300 00 |
| " Hewes | 190 00 |
| " Ingold | 200 00 |
| J L Higginbotham on acct | 500 00 |
| C Albright, on park acct | 502 00 |
| Jos Seiler | 39 34 |
| James Bayliss | 77 58 |
| Bawman & Maier | 6 25 |
| H P Baldwin | 13 50 |
| City Marshal | 50 00 |
| A McClinnock | 7 50 |
| Russell & Co | 2 80 |
| B Shepley | 2 75 |

Bill of J. Seiler for balance on Muskingum street culvert referred to street and alley committee.

Michael Kieffel's claim of $50 for damages was indefinitely postponed.

RESOLUTIONS.

By Mr. Ruchti—That the collection of Mill street improvement be deferred for one week.—adopted.

By Mr. Hendon—That the several ward commissioner be suspended after the 19th inst—adopted.

By Mr. Mong—That Mr. Ruchti be authorized to employ Mr. Williams of Canton as civil engineer, and notify Mr. Beach of the same,—adopted.

By Mr. Conrad—That the standing committee on gas confer with the gas company in reference to the purchase of the Massillon gas works,—adopted.

By Mr. Mong—That F. L. Baldwin, attorney, &c., be and he hereby is authorized and directed, for and in behalf of this municipal corporation, to take such measures as he shall deem advisable to have the action in the court of common pleas of Stark county, Ohio, in which the city of Marsillon is plaintiff, and John R. Dangler, as treasurer of said city, and Clem Russell are defendants, dismissed from said court, as also the appeal recently taken in said case in the name of said city, to the district court; because that the said city has at no time, either before or since the instituting of said suit authorized, directed or advised the use of its corporate name, either in the commencing or maintaining of said action, as the plaintiff therein, and as such party, is now especially desirous of having itself dismissed and released from said action, and its corporate name withdrawn from the same; and because, further, it desires that all litigation in the premises should cease. And the clerk of this body is instructed to notify Mr. Baldwin of this action of the city council,—adopted. Yeas—Russell, London, Mong, Ruchti, and Bollinger. Nays—Crowe, Conrad and Ogden.

Adjourned.

MARRIED—On the 17th inst, by the Rev. J. J. Fast, HENRY EVERHARD, SR., of Massillon, and ELIZA HAUSLEY, of Buckhart, Illinois

DIED—On the morning of the 22d inst., DEMIA A. wife of Mr. O. S. Cox, in the 21st year of her age. The funeral will take place at the residence of her father, Mr. Charles Killinger, at 1 o'clock, p. m. on Thursday the 24th inst. The friends are invited to attend.

# TO PHYSICIANS.

NEW YORK, August 15th, 1868.

Allow me to call attention to my Preperation of Compound Extract Buchu. The component parts are Buchu, Long Leaf, Cubebs, Juniper Berries.

*Mode of Preparation.*—Buchu, in vacuo. Juniper berries, by distillation to form a fine gin. Cubebs extracted by displacement with spirits obtained from Juniper Berries, very little sugar is used and a small proportion of spirit. It is more palatable than any now in use.

Buchu as prepared by druggists, is of a dark color. It is a plant that emits its fragrance; the action of a flame destroys this (its active principle), leaving a dark and glutino decoction. Mine is the color of ingredients. The buchu in my preparation predominates; the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection it will be found not to be a tincture, as made in pharmacopœa, nor is it a syrup—and therefore can be used in cases where fever or inflamation exists. In this, you have a knowledge of the ingredients and the mode of preparation.

Hoping that you will favor it with a trial, and that upon inspection it will meet with your approbation,

With a feeling of profound confidence,
I am, very respectfully.
H. T. HELMBOLD,
Chemist and druggist of 19 years experience.

(From the largest Manufacturing Chemists in the world.)

November 1, 1854.

"I am acquainted with Mr. H. T. Helmbold; he occupied the Drug Store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise."

WILLIAM WEIGHTMAN.
Firm of Powers & Weightman, Manufacturing Chemists, Ninth and Brown Streets, Philadelphia.

# HELMBOLD'S

## FLUID EXTRACT

# BUCHU.

For weakness arising from indiscretion. The exhausted powers of nature which are accompanied by so many alarming symptoms among which will be found indisposition to exertion, loss of memory, wakefulness, horror of disease, or forebodings of evil; in fact, universal lassitude, prostration, and inability to enter into the enjoyment of society.

## THE CONSTITUTION

once affected with organic weakness, requires the aid of medicine to strengthen and invigorate the system, which Helmbold's Extract Buchu invariably does. If no treatment is submitted to, consumption or insanity ensues.

Helmbold's Fluid Extract Buchu

in affections peculiar to females, is unequaled by any other preparation, as in chlorosis, or retention, painful, or suppression of the customary evacuations, ulcerated or Schirrus state of the uterus, and all complaints incidental to the sex, or the decline or change of life.

Helmbold's Fluid Extract Buchu

AND

## IMPROVED ROSE WASH

will radically exterminate from the system diseases arising from habits of dissipation, at little expense, little or no change in diet, no inconvenience or exposure; completely superseding those unpleasant and dangerous remedies copaiva and mercury, in all these diseases.

## USE

Helmbold's Fluid Extract Buchu

In all diseases of these organs, whether existing in male or female, from whatever cause originating, and no matter how long standing. It is pleasant in taste and odor, immediate in action, and more strengthening than any of the preparations of bark or iron.

Those suffering from broken down or delicate constitutions, procure the remedy at once.

The reader must be aware that, however slight may be the attack of the above diseases, it is certain to effect the bodily health and mental powers.

All the above diseases require the aid of a Diuretic. Helmbold's Extract Buchu is the great Diuretic.

Sold by druggists everywhere. Price $1,25 per bottle, or 6 bottles for $6,50. Delivered to any address. Describe symptoms in all communications. Address,

A Repository of Fashion Pleasure and Instruction.

## HARPER'S BAZAR.

A supplement containing numerous full sized patterns of useful articles accompanies the paper every fortnight.

Harper's Bazar contains 16 folio pages of the size of Harper's Weekly, printed on superfine calendared paper, and is published weekly.

*Notices of the Press.*

Harper's Bazar contains, besides pictures patterns, etc., a variety of matter of especial use and interest to the family; articles on health, dress, housekeeping in all its branches; its editorial matter is a speciality adapted to the circle it is intended to interest and instruct; and it has besides, good stories and literary matter of much merit. The young lady who buys a single number of Harper's Bazar is made a subscriber for life.—New York Evening Post.

The Bazar is excellent. Like all the periodicals which the Harpers publish, it is almost ideally well edited, and the class of readers for whom it is intended—the mothers and daughters in average families—cannot but profit by its good sense and good taste, which we have no doubt, are to-day making very many home happier than they may have been before the women began taking lessons in personal and household and social management from this good natured mentor.—The Nation.

SUBSCRIPTIONS.—1871.

*TERMS.*

Harper's Bazar one year.....$4 00

DR. WHITTLESEY, ESQ.

*Dear Sir*:—Having stated it verbally to you, I have no hesitation in writing the fact although not disposed in favor or to recommend patent medicines in general.

I do this more readily in regard to the sick headache cure prepared by Dr. Whittlesey, of Norwalk, Ohio. I have analyzed and tried it, and I recommend it as one of the best dyspepsia cures ever invented, and I feel that in recommending Whittlesey's cure I am doing at act of justice to the compounder of it, and an act of benevolence to those afflicted with dyspepsia and sick headache for which it is recommended.

Yours Respectfully,
FRANCIS RAAS, M. D.

NOTICE.—All persons knowing themselves indebted to the late firm of Kelley Bros., are requested to call and settle without delay.

My place of business is in the express office. GEO. V. KELLEY,

# HEALTH! BEAUTY!!

**Strong, Pure and Rich Blood—Increase of Flesh and Weight—Clear Skin and Beautiful Complexion, SECURED to ALL.**

# RADWAY'S

## Sarsaparillian Resolvent

HAS MADE THE MOST ASTONISHING CURES. SO QUICK, SO RAPID ARE THE CHANGES THE BODY UNDERGOES UNDER THE INFLUENCE OF THIS TRULY WONDERFUL MEDICINE THAT

**Every Day an Increase in Flesh and Weight is Seen and Felt.**

**Scrofula, Consumption, Syphilis, uncured and badly treated Venereal, in its many forms, Glandular disease, Ulcers in the Throat, Mouth, Tumors, Nodes in the Groins and other parts of the system, Glands and Joints, Strumous discharges from the Sore Eyes, Strumous diseases of the Eyes, Nose and Ears, Eruptive diseases of the Eyes, Nose and Ears, Eruptive diseases of the Face, Erysipelas, Ring Worm, Salt Rheum, Erysipelas, Acne, Black Spots, Worms in the Flesh, Weakening and painful discharges, Night sweats, Loss of Sperm and all wastes of the life principle, are within the curative range of Radway's Sarsaparillian Resolvent, and a few days use will prove to any person using it for either of these forms of disease, its potent power to cure them.**

No other remedy has ever attained such unparalleled success, or such wonderful power to cure all forms of Chronic, Constitutional and Skin and Blood diseases, as has the Sarsaparillian Resolvent. Not only does the Sarsaparillian Resolvent exceed all known remedial agents, in the cure of Chronic, Scrofulous, Constitutional, Skin and Syphilitic diseases, but it is the only positive remedy for **Kidney, Bladder, Urinary, and Womb diseases, Gravel, Diabetes, Dropsy, Stoppage of Water, Incontinence of Urine, Bright's disease, Albuminuria, and in all cases where there are Brick dust deposits, or the water is thick, cloudy, mixed with sub-stances like the white of an egg, or threads like white silk, or there is a morbid dark, bilious appearance, and white bone dust deposits, and where there is a pricking, burning sensation when passing water, and pain in the Small of the Back and along the Loins. In all these conditions Radway's sarsaparillian resolvent aided by the application of Radway's Ready Relief to the spine or Small of the Back, and the bowels regulated with one or two of Radway's Regulating Pills per day, will soon make a complete cure. In a few days, the patient will perceive that the kidneys are healed, no longer obliged to hold and discharge his water unnaturally without pain, and the Urine will be restored to its natural clear, and amber or sherry color.**

THE WASTES OF THE BODY are supplied with new, healthy, and vigorous blood, that forms their sound structure. Hence all suffering from WEAKENING DISCHARGES, either MALE or FEMALE, of the Womb, Uterus, or other organs, whether Leucorrhœa, Sperm or Semen discharges, or even if kept from violence of Self-abuse, or from the Genital Glands or Venereal discharges, or ulcers, or sores, through the reparative process of RADWAY'S SARSAPARILLIAN, are speedily, and the ruptured organs healed

THE TRUE THEORY OF CURE.

RADWAY'S SARSAPARILLIAN RESOLVENT supplies the system, through the blood, urine, sweat, and other excretions with fresh material, (Flesh making Elements,) Blood or Colonic and Fat making elements. All of these constituents are **promptly purifying, and strengthening.** *It Regulates, Heals, Restores, and drives out of the body* the products of Decay and Corruption CONSUMPTION, WHITE SWELLING, DROPSY, SYPHILIS, CANCERS, TUMORS &c., are all of a scrofulous character, and as such are within the curative range of the SARSAPARILLIAN RESOLVENT!

1. That Scrofula, by whatever name designated, is the result of deposits from the blood, induced or caused by Chronic inflammation. That these deposits take place when the blood is *poor, weak, watery*, and impregnated with matter in solution its proper constituents, or from the presence of some waste product in the blood as Mercury, Corrosive Sublimate, which is the Corrosive Chloride of Mercury, or other agents, given in medicines and which enter largely in the common advertised Sarsaparillas, NOT ABSORBED OR CHANGED FROM THEIR NATURAL CONDITION.

2. That unless the repairs or nutriments are greater than the wastes, that decomposition and decay will supervene, and the powers of life become exhausted,

3. That the dying body cannot be sustained on any treatment of medication that exhausts the system, or fails to nourish the blood, the only medium through which the vital forces are preserved, and on which the growth of the body depends.

4. That **Radway's Sarsaparillian Resolvent** supplies a want never before possessed or known to exist in medicine, that this new found principle in Chemical science, which has been brought to such a perfect system of cure is established as follows:

1. It is great power in the assimilating the food in its first stage of digestion in the process of digestion, as chyme and chyle with the nourishing elements of blood, separating from these liquids refuse and inert qualities before they are taken up by the lacteals and are formed into blood. Here we see that by its wonderful power it charges the system with the very essence or principle that forms the vital powers of the body, and its chemical action on the blood in its primitive and complete condition, separates every atom of refuse material or element, out of which the virus of disease is formed.

2. That, the blood thus prepared, and supplied with these nourishing properties becomes strong, rich and healthy, and holds in solution its proper constituents, through the **Sarsaparillian Resolvent**, and repairs the wastes of the body with sound and healthy substances. So is the wonderful power the **Sarsaparillian Resolvent** exerts on the blood and tissues of the system; that no virulent humors or poisons will exist by which deposits are made.

3. The rapidity which the **Sarsaparillian** enters the circulation, and immediately its curative powers through the Blood, Sweat, Urine, and other fluids, secures the constituent secretions of each respective organ, establishing functional harmony throughout the system; through its action and power over the Secretions, the Liver secretes its natural or proper allotment of bile; the Skin sweat; the Kidneys urea; and the Lungs carbon; so that this wonderful medicine not only establishes health in the sick body, but preserves the system in health.

As we have shown the principle on which disease is formed, as well as the only sensible theory of cure, we claim that the range of cure of the **Sarsaparillian Resolvent** is unlimited, and that every disease that is of a Chronic, Scrofulous or Organic Diathesis, is properly within its special range.

THE GREAT SECRET OF CURE

in this Medicine consists in the selection of ingredients containing curative and nourishing properties that supply the blood and general system with such constituents which in a condition of disease and depravity, it is deficient of, together with the combination of the several ingredients that form the SARSAPARILLIAN RESOLVENT.

If the constituent of Oxygen was exhausted from the atmospheric air, life would become extinct. So, when the blood becomes exhausted of its vital constituents, it deposits its tubercles and diseased humors in the body, and the elements of decay and decomposition supervene. **Radway's Sarsaparillian Resolvent** is to the blood and general system what OXYGEN is to the atmospheric air; it supplies the life principle, and enables the blood to hold in solution all its natural constituents.

DAILY CHANGES

take place, for as the Sarsaparillian increases the strength and purity of the blood, all deposits are diminished, and where there are tubercles formed in the lungs, the further deposits are arrested, and those that are established or forming dislodged, expelled, exhausted, or the portion of the diseased lung cicatrized, and the consumptive, scrofulous subject receives good, if not sound, health.

BLIND LADY CURED.

Gravel, Dyspepsia, Sore Legs, Bleeding from the Lungs, Cured.

MR. GEORGE MORTIMER, a commercial traveller, in Canada West, writes us, under date of April 17, 1870, from Woodstock:

"The SARSAPARILLIAN RESOLVENT is in great demand, and working wonders. Mr. HOAG, of Strathville, merchant, sold me of a case where a woman WAS BLIND, but, by the use of the SARSAPARILLIAN RESOLVENT, can now see to read. She would give a certificate, but does not wish to be bothered with people writing. Hundreds call to see her. The cure is regarded as wonderful.

"Messrs. WHITE & SCOTT, principal druggists here, inform me of a person of note—high social standing—who for years was afflicted with DYSPEPSIA in GRAVEL, who has been entirely cured by RADWAY'S SARSAPARILLIAN RESOLVENT."

MR. HOAG reports another case of Chronic Sore Leg, that resisted all other advertised medicines, cured by a few bottles of SARSAPARILLIAN RESOLVENT.

"MR. JONATHAN FREELAND, of Widder Station, cured, by one bottle, of Bleeding from the Lungs, Night Sweats, Threatened Consumption.

"In every town I visit I hear of wonderful cures by the SARSAPARILLIAN RESOLVENT. For every kind of Humor, Sore, Skin Eruptions, and all weakening discharges, the people use it, and become cured; so with Fits, Scrotula, White Swelling, Sore Heads and Eyes, Nose and Mouth, all kinds of Sores, this wonderful remedy acts so powerfully on the blood that all who take it become strong, sound, and healthy.

"GEO. C. MORTIMER,
"Commercial Traveller."

RADWAY'S SARSAPARILLIAN RESOLVENT is sold at $1 per Bottle, or 6 Bottles for $5, by all Druggists and Medicine Dealers, and at DR. RADWAY'S Medicine Warehouse, 87 Maiden Lane, New York City.

**What Thad Stevens Thought Mishler's Herb Bitters.**

Mr. Wm Lambert, First Assistant Engineer, U. S N., writes to Dr. S B. Hartman & Co., Lancaster, Pa., the following: "At the capture of New Orleans I was wounded in the right leg by a shell. The wound healed up, but a bad sore broke out on my ankle. Several doctors tried to benefit me but none succeeded. It was then that Hon Thad Stevens member of congress saw me, and, on learning the nature of my trouble, told me about Mishler's Herb Bitters, saying, it is the most wonderful combination of medicinal herbs I ever saw. I use it myself, and I know that it will cure you in a very short period. Try it, my friend, try it. I will have it sent to you." The result fully justified the high opinion of Mr. Stevens regarding your bitters, for its use was followed by a perfect cure." Sold by druggists generally. Price one dollar per bottle.

**A Body and Mind Disease.**

Such is dyspepsia. The stomach and the body are too intimately allied for the one to suffer without the other, so that dyspepsia and despondency are inseparable. It may be added, too, that irritation of the stomach is almost always accompanied by irritation of the temper

The invigorating and tranquillizing operation of Hostetter's Bitters is most powerfully developed in cases of indigestion. The first effect of this agreeable tonic is comforting and encouraging. A mild glow pervades the system, the chronic uneasiness in the region of the stomach is lessened, and the nervous restlessness which characterizes the disease is abated. This improvement is not transient. It is not succeeded by the return of the old symptoms with superadded force, as is always the case when unmedicated stimulants are given for the complaint. Each dose seems to impart a permanent accession of healthful invigoration. But this is not all. The aperient and anti-bilious properties of the preparation are secondary in importance to its tonic virtues. If there is an overflow of bile the secretion is soon brought within its proper limits, and if the biliary organ is inert and torpid it is toned and regulated. The effect upon the discharging organs is equally salutary, and in cases of constipation the cathartic action is just sufficient to produce the desired result gradually and without pain. The bitters also promote healthy evaporation from the surface which is particularly desirable at this season when the sudden spells of raw, unpleasant weather are apt to check the natural perspiration and produce congestion of the liver, coughs, and colds. The best safeguard against all diseases is bodily vigor, and this great vegetable restorative essentially promotes.

# HALL'S

## VEGETABLE SICILIAN

# HAIR RENEWER

RESTORES GRAY HAIR TO ITS ORIGINAL COLOR, PROMOTES ITS GROWTH, AND IS A SPLENDID DRESSING. TRY ONE BOTTLE AND THICKEN UP THE THIN LOCKS!

Is the only perfected and scientifically prepared preparation of its kind ever offered to the public, and has no competitor in *merit*. By its use GRAY HAIR is soon restored to its original youthful color and brilliancy, which is so much admired by all. Persons whose hair is thin or falling out will, by the use of our Renewer, soon see its good effects, as, by its *tonic* and stimulating properties the hair glands will be incited and the hair grow thick and strong again. In cases of *Baldness* it will create a new growth unless the follicles are destroyed. It is cooling, and allays all itching and irritation of the scalp. It does not stain the skin as do dyes, but makes the scalp white and clean. As a DRESSING it is the best and most economical preparation in the world, as its effects last so much longer. Send for our Treatise on the hair, free to all, by mail.

*Sold by all Druggists and Dealers in Medicine.*

**Price one Dollar Per Bottle.**

In Memphis the dentists are charging three dollars a pull.

Bourbon die nasty—Kentucky whisky and delirium tremens.

The Chicago Republican calls the oil regions earth's holiest spot.

It is a mistake to suppose the sun is supported in the skies by its beams.

Virtue is a strong drink that makes all the virtues stagger.

Josh Billings says he believes, like Greeley in the universal salvation of men, but he wants to pick the men.

Dr. Doremus' idea of a duel is for both parties to swallow strychnine, and then play poker for the stomach pump.

The amount that a laborer would receive for one year's labor at $1,50 per day would be the interest at six per cent. on $7,989, which latter sum would be the cash value of the man to his family.

An old dilapidated bank note is going round with a piece of yellow paper pasted on the back of it, on which was written in a bold, free hand: 'Go it, Bill, I'll back you!'

A fair trial is only needed to convince the most skeptical that Hall's Vegetable Sicilian Hair Renewer will accomplish all that is claimed for it.

'You may depend on it,' said Thoreau, 'that the poor fellow who walks away from the post office with the greatest number of letters, proud of his extensive correspondence, has not heard from himself for a long time.

If you are a wise man, you will treat the world as the moon treats it—show it only one side of yourself, seldom show yourself too much at a time, and let what you show be calm, cool and polished; but look at every side of the world.

A mother out west recently addressed her daughter thus: "My daughter, you are now are fifteen years of age, engaged to be married and without a freckle on your face. I have done my duty."

A Nashville girl tried to hang herself because her nose was turning red 'Tastes is various,' said Sam Weller Some men spend large sums of money, time and whisky in bringing their noses to a bright red.

True success results from true merit Hall's Vegetable Sicilian Hair Renewer is placed before the public, resting solely on its own merits. Its success is already indisputable.

No Humbug.—We do not wish to inform you, reader, that Dr. Wonderful, or any other man, has discovered a remedy that cures all diseases of mind, body or estate, and is destined to make our sublunary sphere a blissful paradise, to which heaven itself shall be but a side show, but we do wish to inform you that Dr. Sage's Catarrh Remedy has cured thousands of cases of Catarrh in its worst forms and stages, and the proprietor will pay $500 for a case of this disease that he cannot cure It may be procured by mail for sixty cents, by addressing R. V. Pierce, M. D. Buffalo, N. Y. For sale by druggists.

Surgeons and observers in the hospitals unite in the statement that the wounded Prussians recover far more quickly than the French, and this, though the Prussians camp out *a la belle etoile*, with nothing to shelter them but their military cloak, and therefore are many of them in a state of great exhaustion when wounded. This is attributed to the amount of spirits which a French soldier will drink when he gets a chance, while a German invariably prefers beer. It has become a settled fact, among medical thinkers, that the more a man's system is poisoned and clogged with alcohol and tobacco, the slower is his recovery from wounds and fevers of all kinds.

In visiting the oil region one is struck with the originality of the oil operator. You see it sticking around on derricks, a drilling well will have a board nailed in sight. 'Oil or hell.' 'Grease or China,' &c. Around producing wells where there are appurtenances of fire 'Throw away that cigar,' 'Fools caught with a lited cigar in their mouth will be shot.' Shingles bearing such inscriptions as these stare one in the face whichever way he turns.

There is a man in Buffalo who has registered a vow never to make a humane society of himself again. He took off his coat and leaped into a canal to save a woman from drowning, when a pickpocket stole ten dollars from his coat, and the rescued one was mad because he pulled her chignon off in getting her out.

A little boy was advised by his father to use illustrations in his conversation whenever they should occur to him; 'for,' continued the parent, there is no more forcible way of conveying or impressing your meaning, especially to the young.'

Shortly after the boy was being lectured on generosity. 'It's better to give than receive, Johnny, far better; the Bible says so, and I say its so.'

'Illustrate it, pappy; I think I will understand you better'

Father could not see the application.

# The Independent,

*Massillon, Ohio,*

Is now Seven Years Old, and

"Still Lives."

Without boasting of being an organ of immense influence, we may with diffidence claim that the paper is not without usefulness in the right direction, ever contending for justic in all the living issues of the day. But its principal business has ever been to subserve the local interests of the community with which it is identified, and so it proposes to continue. Its home record of the ever varying phases of business, of the prosperity of the city, and of the social and moral state of society here, with other matters too numerous to specify, will give those who come after us, and have occasion to examine the files of this paper, a faithful history of the years of its existence.

We solicit the continued patronage of our people in the confidence that we shall render satisfaction—at least as near as we can come at it—and for such as are removing elsewhere we hope to make the INDEPENDENT a very welcome visitor.

## ADVERTISING

Done on easy terms. Our patrons have been liberal toward us in this respect, and we hope they may continue such welcome favors, satified that they are well paid for their investments.

## Dr. J. LONG,

***Eclectic Physician,***

Has located himself at Massillon, O., for the treatment of

## Female & Chronic Diseases.

Office on Main street, four doors east of the American Hotel.

All consultations and examinations of patients made free of charge.

Dr. Long examines and explains your disease without asking any questions. If he understands your case you know it, and cannot be deceived. If he cannot tell your disease, and how you feel without asking questions he does not consider himself competent to treat your case. This is the criterion to go by, and patients should not be satisfied with any other. This is the only direct and positive evidence of my ability as a scientific physician, and by this standard I am willing to be judged.

A proper diagnosis of local disease, without constitutional symptoms, that is, not affecting the system generally, must depend upon the judgement of both patient and physician.

Give Dr. Long a call, and satisfy yourselves whether he understands your cases sufficiently well to treat them successfully.

Dr. Long may be consulted in the German and English languages. Address letters,
JAMES LONG, M. D.

***Manhood: How Lost, How Restored.***

Just published, a new edition of Dr. Culverwell's Celebrated Essay on the radical cure (without medicine) of Spermatorrhœa, or Seminal weakness, involuntary seminal losses, impotency, mental and physical incapacity, impediments to marriage, etc.; also, consumption, epilepsy, and fits, induced by self indulgence or sexual extravagance.

Price, in a sealed envelope only 6 cents.

The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice that the alarming consequences of self abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This lecture should be in the hands of every youth and every man in the land.

Sent under seal, in a plain envelope, to any address, postpaid on receipt of six cents or two post stamps.

Also, Dr. Culverwell's "Marriage Guide," price 25 cents.

Address the publishers, CHAS. J. C. KLINE & CO., 127 Bowery street New York. P. O. Box 4,586. 374-1y

## FOR SALE,

The desirable dwelling on Prospect street, recently occupied by Thos H Williams. For particulars enquire of
312tf JOS COLEMAN.

## MRS. ALLEN'S

Hair Restorer & Zylobalsamum

Are so uniformly grateful and beneficial, that they are with justice called the natural strengtheners of the human hair. They are two entirely separate and distinct preparations, not to be used together at one time.

**Mrs. Allen's Hair Restorer**

Never fails to satisfy the most refined and cultivated. A guarantee goes with every bottle, that it will quickly restore gray or white hair to its original youthful beauty, gloss and color; after its use a few times the hair will grow thicker and stronger. It will stop its falling and induce a healthy and luxuriant growth. It is an exquisite hair dressing, agreeable, harmless and healthy. Entirely different from most other preparations for the hair, its composition and ingredients are nourishing, giving life and vigor to the Roots.

**Mrs. Allen's Zylobalsamum**

This exquisite preparation is free from any sediment, and is a toilet treasure. The urgent want of a simple Hair Dressing, for the youth of both sexes, first induced the manufacture of the Zylobalsamum, and the sale of it is perfectly immense, not only in this country, but in Europe.

EXTRACTS FROM A FEW LETTERS.

"Your Zylobalsamum is used by every member, young and old, of our family, and we consider it invaluable. Should any gray hairs appear, we shall try your Hair Restorer, which we hear very highly spoken of."

"Father and mother use your Hair Restorer, and are delighted with it. It soon restored their gray locks to their youthful color, but daughters and son still find in the Zylobalsamum all their hair requires."

*From the Principal of one of our large Female Seminaries:* "Your Zylobalsamum has been used for many years by myself and family, and is the favorite among our young ladies."

Sold by all Druggists. Wholesale Depot, S. R. VAN DUZER & CO., 35 Barclay St. and 40 Park Place, New-York.

## DR. WHITTIER

Continues to treat all private diseases, syphilis in all its forms, gonorrhœa, gleet, stricture, orchitis, and all urinary diseases, and the effects of mercury are completely eradicated; spermatorrhea or seminal weakness and impotency, resulting from self abuse or other causes, and which produce some of the following effects, as blotches, bodily weakness, indigestion, consumption, aversion to society, unmanliness, dread of future events, loss of memory, indolence, nocturnal emissions, and finally so prostrating the sexual system as to render marriage unsatisfactory, and therefore imprudent, are permanently cured.

It is self evident that the physician who confines himself exclusively to the study of a certain class of diseases and treats thousands of cases every year must acquire a greater skill in that speciality than one in general practice.

The establishment, comprising ten ample rooms, is central. When it is not convenient to visit the city, the doctor's opinion can be obtained by giving a written statement of the case, and medicines can be sent by mail or express.

The doctor publishes a medical pamphlet of fifty pages that gives a full exposition of venereal and private diseases that can be had free at office or by mail, in sealed envelope, for two stamps. Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.

Hours 9 a. m to 8 p. m. Sundays 12 m, to 2 p. m. Office, No. 9 Wylie street, (near the court house,) Pittsburg, Pa. 365-1y

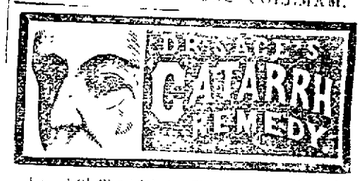
JOS COLEMAM.



I do not wish to inform you, reader, that Dr. Wonderful, or any other man, has discovered a remedy that cures consumption, when the lungs are half consumed, in short, will cure all diseases whether of mind, body or estate, make men live forever, and leave death to play for want of work, and is designed to make our sublunary sphere a blissful paradise, to which heaven itself shall be but a side show. You have heard enough of that kind of humbuggery. But when I tell you that Dr. Sage's Catarrh Remedy will cure the worst cases of catarrh in the head, I only assert that which thousands can testify to. I will pay $500 reward for a case that I cannot cure. A pamphlet giving symptoms and other information sent free to any address. This remedy is

*Sold by Most Druggists in all parts of the World.*

Price 50 cents. Sent by mail, postpaid, on receipt of sixty cents, or four packages for two dollars. Beware of counterfeits and worthless imitations. See that my private stamp, which is a positive guarantee of genuineness, is upon the outside wrapper. Remember that this private stamp issued by the U S government expressly for stamping my medicines, has my portrait name and address and the words U S Certificate of Genuineness engraved upon it, and need not be mistaken. Don't be swindled by travelers and others representing themselves as Dr. Sage, I am the only man now living that has the knowledge and right to manufacture the genuine Dr. Sage's Catarrh Remedy, and I never travel to sell this medicine. R. V. PIERCE, M. D. 133 Seneca street, Buffalo, N. Y. 280-3m
